Royal Paint Roller

Anatomy of a Paint Roller

Professionally Designed
Quality Materials

Bevel Edge

Fabric

Two (2) layers of polypropylene
create a strong, reusable core.

Liquid Polypropylene
in between each layer of
Polypropylene & Fabric
fused as one.

Specially treated Fabric
Backing to Bond with
Liquid Polypropylene

Fabric backing is bonded on 2 layers of
polypropylene. All bonded with liquid
polypropylene. All components are one super
strong, solvent resistant paint roller.

Bevel Edge

Choose the Best Synthetic Roller Cover

- 2 ply heavy duty polypropylene core.
- Face trimming for a better paint finish.
- Bevel trimming eliminates paint dumping.

The DUO

RF600

We didn't invent the roller frame, we just improved it!
Covers twice the area with just one dip of paint.
Applies a double coat of paint at one time.
Paints twice as fast as a single roller.
Applies a smoother, cleaner paint finish.

Unlike anything in the industry today!
Great for hard to reach areas and many other odd jobs.
Fits most standard mini rollers, foam, fabric, flock and tight spot style covers.
Great for railings, radiators, wrought iron and hard to reach trim areas.
The curve of the frame allows for easy dipping in any standard tray, paint bucket or pail.
